BROOKVILLE CITY COUNCIL
REGULAR MEETING
April 17, 2007

The Regular Meeting of the Brookville City Council was called to order by Mayor Seagraves at 7:30 p.m. on April 17, 2007 in the City Council Chambers. The pledge of allegiance was recited. Members Garber, Hanos, Reel and Ullery; Manager Wright, Assistant Manager Sewert, Police Chief Preston, Fire Chief Nickel, Law Director Stephan and Director of Finance/Clerk Keaton were present. Member Duncan was absent.

Motion by Reel, second by Garber to accept the Agenda with additions. All yeas, motion carried.

Motion by Reel, second by Garber to accept the April 3, 2007 Regular Meeting Minutes and the April 12, 2007 Special Meeting Minutes as presented. All yeas, motion carried.

Anna Lemons, of 260 Johnsville Brookville Road, stated she was here this evening to inform Council that she has a flooding problem in her yard. Mrs. Lemons indicated over the years her yard has flooded on several occasions when we experienced a heavy rainfall, but now it seems to happen every time it rains. Mrs. Lemons commented it flows through her yard like a river from the north and from the southwest, sometimes it measures 9" to 10" deep in places. Mrs. Lemons indicated that her yard drains out into the woods on the east side of the road. At times when the water is deep, it gets inside her heating ducts and they are not able to do their dishes, laundry or flush their toilets. Mrs. Lemons commented they were annexed into the City in 1987 and they still do not have sanitary sewer. Mrs. Lemons stated she has contacted several of her neighbors, and she indicated the majority of those homeowners are interested in tapping into the sanitary sewer system.

Manager Wright stated he looked at this concern several days ago. Manager Wright commented the Lemons' yard drains into a culvert that runs under the road to an 8" pipe on the east side of the road. The pipe, under the roadway, seems to be in good shape. There is just no where for the water to go once it drains into to the east side. An outlet needs to be found. Manager Wright stated it is the financial responsibility of the homeowners to connect to the City's sanitary sewer system. Manager Wright stated sanitary sewer currently does not run down Johnsville Brookville Road and with the layout of the land, it may require the installation of a lift station, which is quite costly. The homeowners are also responsible for disbanding their existing septic system. Manager Wright commented the City could have our Engineers take a look at the possibility of constructing a storm sewer along this stretch of roadway and also obtain costs associated with connecting into the City's sanitary sewer system.

Mayor Seagraves adjourned the Regular Meeting of Council at 8:00 p.m. for the Public Hearing, which is a combined meeting with Council and Planning Commission, on proposed Ordinance No. 2007-05, which rezones part of Lot #1575 of the revised and consecutive numbers of lots of the City of Brookville, Ohio from its present classification of "C" Conservation District to the new classification of "R-1B" Urban Residential District.

The Public Hearing was recorded and is on file with the Clerk at the City Offices.

Clerk Keaton advised a Legal Notice was published in the April 4 and 11 editions of the Brookville Star advising of the Public Hearing. The City Office did not receive any telephone calls nor did anyone come into the City Offices to review the proposed Ordinance. Clerk Keaton asked Law Director Stephan for a staff report.

Law Director Stephan stated this lot is the lot that the City is proposing to sell to Building By Design; this lot is being rezoned to R-1B. Law Director Stephan indicated the lot meets all of the R-1B requirements, it has adequate road frontage and adequate depth for all of the R-1B requirements. On the north side of the lot, there will be a 10' easement reserved for ingress and egress to Golden Gate Park. This is an amenity that Building By Design would like to assist the City in developing and they are also willing to work with the City on updating the bridge that crosses the creek there. Building By Design feels that this will be an amenity for the entire subdivision, so that anyone living in this subdivision would be able to walk into Golden Gate Park through that easement. This lot is presently zoned Conservation and is currently a part of Golden Gate Park. This lot will be used for residential development by Building by Design, the owner of Hunters Run Subdivision.
