

## Service Spotlight

### Spring 2019

Spring and early summer always seem to be a busy time and this year, it has certainly been busy in Brookville!

- ❖ A special thank you to our Service Department for all their hard work during the cleanup efforts of the Memorial Day tornadoes. Our crews did a fabulous job with the cleanup after the tornado hit. After the initial cleanup of limbs and debris, employees also had cleanup and repairs to make at the Wastewater Treatment Plant, the cleanup of down trees in Wolf Creek and many other cleanup tasks.

- ❖ Not only has our Service Department been hard at work with cleanup efforts, routine mowing and maintenance, but they've been working on the reconstruction of the pedestrian bridge in Golden Gate Park. Thanks to the Service Department, the bridge (which had to be closed down several months ago due to safety concerns) has been reconstructed and will be ready for use during the upcoming Community Picnic! Job well done!

We wish everyone a wonderful summer!
